ELECRAMA-2010

IEEMA is pleased to announce its 9th international exhibition on electrical and industrial electronics industry, ELECRAMA-2010.

ELECRAMA-2010 will be held at Bombay Exhibition Centre, Mumbai from 20th to 24th January 2010 in four exhibition halls measuring in excess of 50,000 square meters.

The exhibition has received enthusiastic response from the participants and more than sixty percent of the available exhibition area has already been booked. This demonstrates the faith exhibitors have in ELECRAMA and its organizers, IEEMA.

A number of international companies have also shown keen interest in participation. As usual, there will be group participations including those from China, Germany, Korea and Taiwan. A number of exhibitors from other countries like France, Italy, Spain, UK and USA will also be present.

IEEMA will continue its earlier initiatives of IEEMA-SSI pavilion, where small scale industries participate as well as The Students' Pavilion, where selected projects of final year engineering students are displayed in specially designed complimentary stands.

Three international seminars on transformers, instrument transformers and capacitors will be held concurrently with ELECRAMA-2010, where industry experts will share their knowledge and expertise.

ELECRAMA-2010 will have state of art service facilities. ELECRAMA website will provide detailed information about the exhibition and the visitors too, will be able to register in advance on the website. The site will also have a visitor tracking system and other security measures.

As in the past, ELECRAMA-2010 will provide the industry a platform to explore opportunities, discuss business and close deals.

We are preparing ourselves to receive you.

Please block your diary to witness one of the best exhibitions of its kind in the world.
